

RECONNECT, CELEBRATE & continue to INNOVATE!

Beat the 'isolation blues' and join us at a 2 day CONFERENCE
July 26 & 27 Park Royal Parramatta Sydney

Be part of the most innovative education network in the world

The last pillar of the educational status quo has fallen. The Big Picture network has successfully challenged the standardised approach to final year assessment in Australia.

Despite the challenges posed by Covid, Big Picture Advisors around the nation have quietly and stoically pioneered new measures of assessment that are personalised and meaningful representations of the strengths and capacities of our fine graduates.

While others are increasingly talking about how to do assessment differently, and even Learner Profiles, Big Picture schools are already doing it!

And the international education community is now lining up to learn from us how to do it.

Let's keep moving forward together!

One ADVISOR at a time in a community of learners

This year we will foreground the work and experiences of Advisors in getting the new IBPLC Credential right.

Part of the conference will be dedicated to **Moderation Circles** where advisors from different schools come together to share and challenge your understandings of the new assessment measures and work-flow practices.

It will be an opportunity to harvest your insights and lessons learned.

- How do we strengthen our practice and deepen our understanding of the Learning Goals?
- How can we make the reporting process more user-friendly and student-focussed?
- What supports do you need to continue your students' successful transitions to life beyond school?

A learning design for everyone

'I see the difference in these kids and the difference in the quality of their work and their motivation for coming to school and producing amazing, incredible work. It really is lifelong learning.'

Phelissitie - Advisory Teacher

'Big Picture gave the opportunity to go out into the world and feel like I'm doing something that's meaningful. Now it's very exciting for me to get the new credential considering I've worked so hard already to get towards that end goal'

Brandon - Year 12 Student

For Principals:

Come and see the amazing and complex work that your Advisory teams have been doing!

Take part in a Moderation Circle

For those in our partner Universities:

Come along and learn alongside the teachers who are making the judgements in this new, personalised approach to certification.

And as always, there will be plenty of inspiring students on hand to articulate and demonstrate their achievements, and make us all glad to be part of the solution.
