

HEAD

HEART

HAND

Long car journeys with the kids? **Grandkids for the weekends or holidays?** Want ideas to help engage the kids in deeper thinking? **Have some fun? Need a good activity for an after school care program or youth club?**

In this app you will find a series of short 'easy to give' and 'quick to do' activities. They are divided into three categories – head (for thinking and talking), heart (for emotions and relationships) and hand (for making and creating). Just click...up comes a one sentence easy to deliver activity...like it and use it...or just move on to another one waiting to be found. If it works then keep it in your favourites folder to call on again later on.

WARNING: some of these activities may turn into months of exploration and inquiry.

Go to www.headhearthand.net for picture activities that you can use. Have a look.
